

MOVIT[®]

CERAMIC

Braking Systems

100 % Performance. Unlimited Lifetime.

CERAMIC.

GEN.3: THE THIRD GENERATION OF A UNIQUE BRAKING SYSTEM

NO COMPROMISE.

Hard work, years of testing and intensive research taken us one step closer to our dedicated goal: the perfect braking system.

Caliper MOV'IT-CER™

- Especially developed for MOV'IT-CER™
- Extremely stiff Aluminium alloy
 - > Supreme stability
 - > Highest braking force
- Progressive piston arrangement
 - > Even heat transfer
 - > Even pad wear
- Open pad setting
 - > Optimized Cooling

1

Braking pads MOV'IT-CER™

- Enhanced friction surface
- Even heat transfer
- Lower temperature

2

Friction ring MOV'IT-CER™

- Highly efficient DCC™ system
 - > Double Ceramic Cooling
- Homogeneous material structure
- High thermal conductivity
- Superior thermal capacity
- Highest fading resistance
- Longer lifetime

3

- 1 Front view caliper
- 2 Top view pad
- 3 Top view friction ring / side view

* MOV'IT

** XY

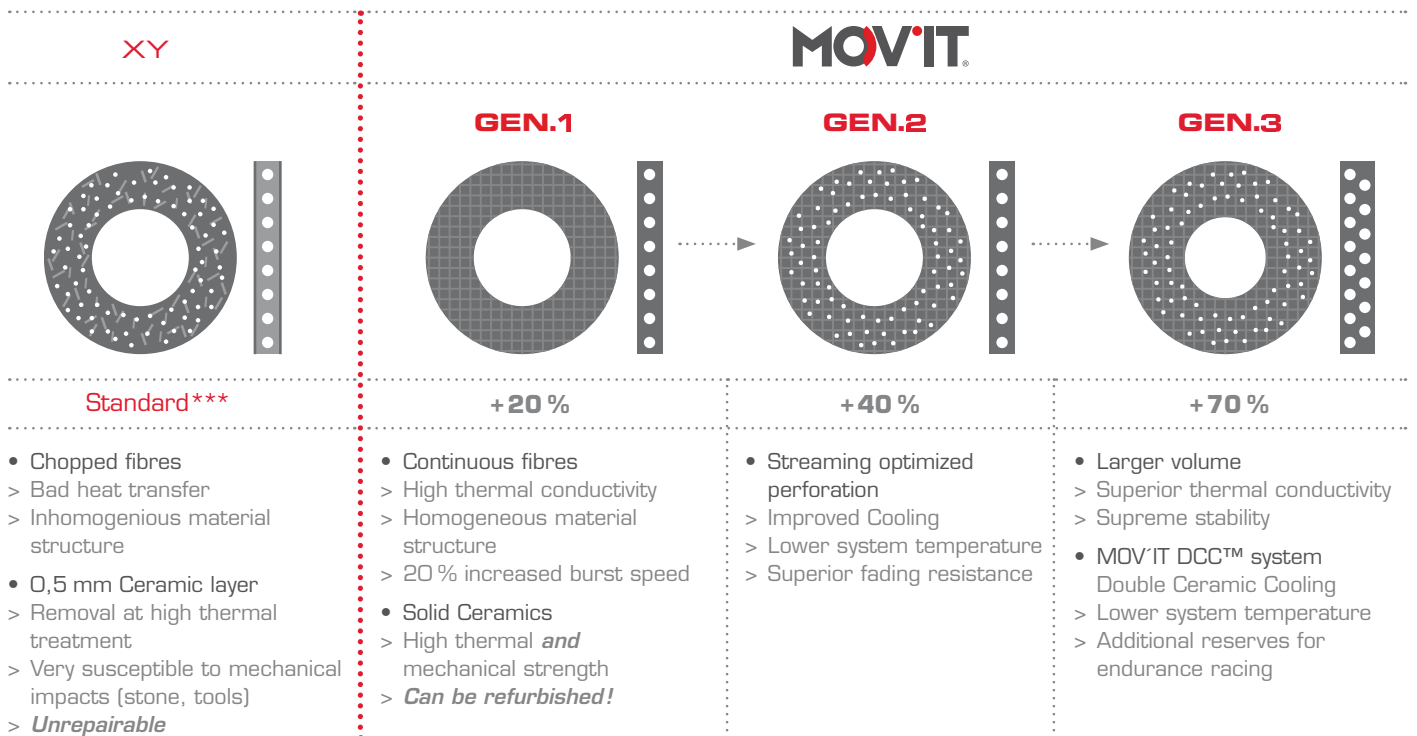

*** Heat transfer and capacity other manufacturers (basic value = 100 %)

PERFORMANCE.
LIGHTWEIGHT.
DURABILITY.

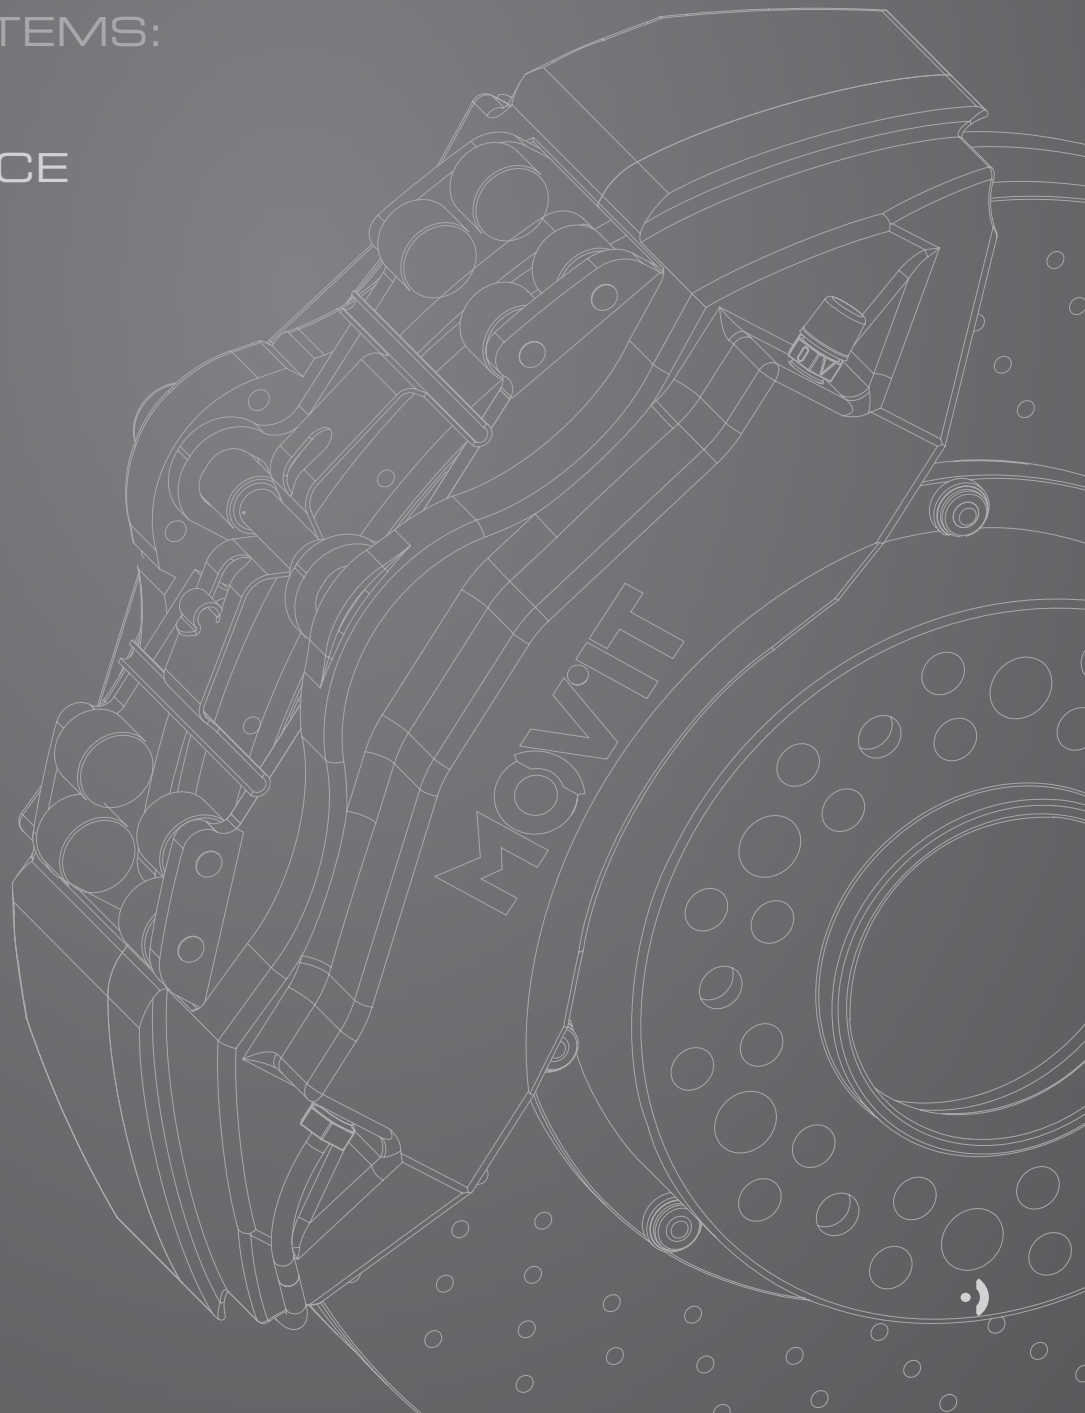

MOVIT-CER™

THE EVOLUTION OF A UNIQUE BRAKING SYSTEM

BRAKING SYSTEMS:

- **CERAMIC**
- PERFORMANCE
- SECURITY
- SUV
- RACING
- OFFROAD
